SEMEN RETENTION

Bundara Downs advises their intention to maintain a semen interest in all rams offered. This means Bundara Downs reserves the right to collect semen from any ram offered, for use within own flock only (unless otherwise stated).

This collection of semen is to be done at the convenience of the purchaser and at the cost of Bundara Downs.

FLOCK PERFORMANCE FIGURES

Performance figures in the catalogue are provided by LAMBPLAN from information collected on our flock by Rachel Chirgwin of RAC Farming (Ph. 0428 600 265)

The figures shown are estimated breeding values (EBV's) for growth, fat depth and eye muscle depth at post weaning (9 months). They are compared with all White Suffolk sheep in the LAMBPLAN data base. The index value shown - Carcass Plus - is a combination of the above EBV's describing the value of each ram in a breeding programme.

HYPOTRICHOSIS (HrF)

Bundara Downs takes its responsibilities as a producer of seed stock genetics for the prime lamb industry seriously. Not only do we need to provide the industry with genetics that improve profit driving traits such as growth, efficiency, yield, muscling and fertility, we have a responsibility to ensure genetic conditions that could have a negative effect on productivity are identified, managed and eliminated. When Hypotrichosis (HrF) was identified as an issue in White Suffolk's (and other breeds), Bundara Downs took the bold (and expensive) step of DNA testing our White Suffolk stud sheep resulting in a DNA tested HrF free flock. All progeny are from DNA tested HrF free sires and dams meaning there are no HrF carriers in our registered flock. Because HrF is recognised as a simple autosomal recessive trait, meaning that both parents must carry the gene for it to be expressed in the progeny, using DNA tested HrF free Bundara Downs rams or ewes and their progeny means the problem will not appear in their progeny in your flock, even if HrF is present in your flock.

WHITE SUFFOLK STUD HISTORY

The Bundara Downs White Suffolk stud was founded in 1993 with the purchase of elite genetics from highly successful studs within Australia. From this solid foundation, we are producing high quality soundly structured rams that are making a positive impact on the prime lamb industry. To do this we evaluate our stock utilising visual assessments as well as Lambplan, weighing of lambs at birth, weaning weights, measuring muscle and fat depth at 9 months. The Lambplan data is compared across studs within Australia to give us a comparison of our performance, not just within our stud.

Acquisition of leading sires has enhanced our excellent muscling and growth without restricting our genetic pool, allowing us to produce rams with varied traits to suit different production systems of our clients. In 2011 Bundara Downs joined the Super Whites group, to further increase genetic gain within the stud through access of high performing sires.

POLL DORSET STUD HISTORY

The Bundara Downs Poll Dorset stud was founded in 2002 with the purchase of stock from renowned studs within Australia. The initial breeding program was based on artificial insemination allowing us to source elite genetics from influential studs. The Poll Dorset stud was established to allow us to diversify and cater for different production systems utilised by clients in different regions. We evaluate our stock utilising visual assessments as well as Lambplan, weighing of lambs at birth, weaning weights, measuring muscle and fat depth at 9 months. This diversity has enabled us to breed, to suit a wide range of markets within the prime lamb industry.

The Poll Dorset stud produces rams with exceptional muscle while maintaining sound structure and conformation. We target sires with clean points to reduce grass seed issues as well as a smooth modern shoulder to maintain the lambing ease. In 2006, Bundara Downs joined the Meat Elite group to identify, develop and utilise superior genetics.

SUFFOLK STUD HISTORY

The Bundara Downs Suffolk stud was founded in 2015 with the purchase of stock from renowned studs within Australia. The initial breeding program was based on artificial insemination allowing us to source elite genetics from influential studs. The Suffolk stud was established to allow us to diversify and cater for different production systems utilised by clients in different regions.

We evaluate our stock utilising visual assessments as well as Lambplan, weighing of lambs at birth, weaning weights, measuring muscle and fat depth at 9 months. This diversity has enabled us to breed, to suit a wide range of markets within the prime lamb industry. Bundara Downs main aim is to breed a Suffolk with good growth, positive fat and muscle while maintaining the breed attributes.

MEMO OF SIRES

Bundara Downs 194158	Outstanding ram with proud presence and excellent balance of figures.
Bundara Downs 194664	Outcross ram with excellent type and balance of figures.
Bundara Downs 205932	Son of AS170986, well balanced and good type ram.
Bundara Downs 205844	Son of EM 180100 with excellent eating qualities.
Farrer 190001	Top price ram purchased in partnership with Gemini stud.
Ashmore 190016	Top price ram purchased in partnership with Booloola & Cheringa studs.
Ashmore 200896	Top price ram purchased Cheringa stud, semen used.
Felix 201006	Top price ram at Felix sale, good balanced figures.
Felix 200145	Superwhite YST , semen used.
Illoura 200446	Top price ram of EM180100 with excellent eating qualities.
Ramsay Park 200078	Purchased in partnership with Anna Villa stud.
Yonga Downs 200063	Balanced ram with good structure, semen used.
Farrer 200044	Superwhite YST , semen used.
Ella Matta 200545	Superwhite YST , semen used.

MEMO OF SIREs cont.

Ella Matta 180100	Record price ram in SA. Purchased in partnership with Anna Villa and Ashmore studs.
Gemini 170470	Top price ram Gemini sale. Exceptional carcass and balance of figures.
Bundara Downs 205582	Exceptional ram used as a ram lamb. Outcross ram with balance of figures and good LE.
Bundara Downs 206216	Balanced ram sired by BD181548.
Derrynock 180067	Exceptional eating quality and balance of figures.
Ivadene 200010	Well muscled ram purchased for muscling.
Felix 200407	Meat Elite Aust. YST, semen used.
Valma 200076	Valma keeper ram, semen used.
Woolumbbool 207491	Meat Elite Aust. YST, semen used.
Woolumbbool 184874	Kindly loaned by Woolumbbool stud.
Wendenlea 200095	Well balanced and muscled ram., purchased in partnership with Curlew Valley.
Karinya 199028	Outcross blood with excellent growth & muscle and leading sire in the Suffolk breed.
Lynburn 170125	Suffolk ram purchased in partnership. Exceptional carcass and outcross pedigree.
