BUNDARA DOWNS SALE DETAILS

357 Lots comprising : 18 Stud Rams, 20 Special Selected Rams and 319 Flock Rams
Sale to be held on property 'Bundara Downs' (see map on back)

Please Note : Light B.B.Q luncheon supplied, catered for by Bundara Downs.

Purchased sheep may be held on property awaiting delivery following the Sale at the 'Purchasers Risk'

For further information, contact selling agents :

Elders Bordertown 0887 521011

Laryn Gogel 0436020245

Tony Wetherall 0427390001 Ronnie Dix 0408400870

4% rebate to agents introduced & accompany 24 hrs. prior in writing to settling agent.

1% rebate to agents introduced by buyer on sale day settling on their behalf.

Agents are required to be in attendance to receive the rebate detailed above.

Inspection of stock from 9.30am on sale day or prior arrangement with :

Steve and Ros Ph. / fax 08 87582032 or 0418 853980 & 0448 002758

Greg and Selena Ph. 08 87582070 or 04002 62492

FLOCK HEALTH

- . Ovine Johnes Disease MN3 Status (No. S8)
- . Ovine Brucellosis Accredited (No. 997)
- . Drenched with Tridectin early August.
- . Glanvac 6:1 and B12 early August.
- . All outside WS sires DNA tested Hypotrichosis free (HrF).
- . Footrot free
- . White Suffolk's Sire & Dam Hypotrichosis Free (HrF).
- . Rams treated with Exstinosad Eliminator early August.

SEMEN RETENTION

Bundara Downs advises their intention to maintain a semen interest in all rams offered. This means Bundara Downs reserves the right to collect semen from any ram offered, for use within own flock only (unless otherwise stated).

This collection of semen is to be done at the convenience of the purchaser and at the cost of Bundara Downs.

FLOCK PERFORMANCE FIGURES

Performance figures in the catalogue are provided by LAMBPLAN from information collected on our flock by Rachel Chirgwin of RAC Farming (Ph. 0428 600 265)

The figures shown are estimated breeding values (EBV's) for growth, fat depth and eye muscle depth at post weaning (9 months). They are compared with all White Suffolk sheep in the LAMBPLAN data base. The index value shown - Carcass Plus - is a combination of the above EBV's describing the value of each ram in a breeding programme.

HYPOTRICHOSIS (HrF)

Bundara Downs takes its responsibilities as a producer of seed stock genetics for the prime lamb industry seriously. Not only do we need to provide the industry with genetics that improve profit driving traits such as growth, efficiency, yield, muscling and fertility, we have a responsibility to ensure genetic conditions that could have a negative effect on productivity are identified, managed and eliminated. When Hypotrichosis (HrF) was identified as an issue in White Suffolk's (and other breeds), Bundara Downs took the bold (and expensive) step of DNA testing our White Suffolk stud sheep resulting in a DNA tested HrF free flock. All progeny are from DNA tested HrF free sires and dams meaning there are no HrF carriers in our registered flock. Because HrF is recognised as a simple autosomal recessive trait, meaning that both parents must carry the gene for it to be expressed in the progeny, using DNA tested HrF free Bundara Downs rams or ewes and their progeny means the problem will not appear in their progeny in your flock, even if HrF is present in your flock.

WHITE SUFFOLK STUD HISTORY

The Bundara Downs White Suffolk stud was founded in 1993 with the purchase of elite genetics from highly successful studs within Australia. From this solid foundation, we are producing high quality soundly structured rams that are making a positive impact on the prime lamb industry. To do this we evaluate our stock utilising visual assessments as well as Lambplan, weighing of lambs at birth, weaning weights, measuring muscle and fat depth at 9 months. The Lambplan data is compared across studs within Australia to give us a comparison of our performance, not just within our stud.

Acquisition of leading sires has enhanced our excellent muscling and growth without restricting our genetic pool, allowing us to produce rams with varied traits to suit different production systems of our clients. In 2011 Bundara Downs joined the Super Whites group, to further increase genetic gain within the stud through access of high performing sires.

POLL DORSET STUD HISTORY

The Bundara Downs Poll Dorset stud was founded in 2002 with the purchase of stock from renowned studs within Australia. The initial breeding program was based on artificial insemination allowing us to source elite genetics from influential studs. The Poll Dorset stud was established to allow us to diversify and cater for different production systems utilised by clients in different regions. We evaluate our stock utilising visual assessments as well as Lambplan, weighing of lambs at birth, weaning weights, measuring muscle and fat depth at 9 months. This diversity has enabled us to breed, to suit a wide range of markets within the prime lamb industry.

The Poll Dorset stud produces rams with exceptional muscle while maintaining sound structure and conformation. We target sires with clean points to reduce grass seed issues as well as a smooth modern shoulder to maintain the lambing ease. In 2006, Bundara Downs joined the Meat Elite group to identify, develop and utilise superior genetics.

SUFFOLK STUD HISTORY

The Bundara Downs Suffolk stud was founded in 2015 with the purchase of stock from renowned studs within Australia. The initial breeding program was based on artificial insemination allowing us to source elite genetics from influential studs. The Suffolk stud was established to allow us to diversify and cater for different production systems utilised by clients in different regions.

We evaluate our stock utilising visual assessments as well as Lambplan, weighing of lambs at birth, weaning weights, measuring muscle and fat depth at 9 months. This diversity has enabled us to breed, to suit a wide range of markets within the prime lamb industry. Bundara Downs main aim is to breed a Suffolk with good growth, positive fat and muscle while maintaining the breed attributes.

MEMO OF SIREs

Bundara Downs 232828	One of our best rams bred. Has excellent presence, structure and type with good muscle.
Bundara Downs 232873	Out cross keeper ram 2024.
Bundara Downs 232933	Out cross keeper ram 2024.
Bundara Downs 221135	Outstanding ram with presence, outcross pedigree and balance.
Bundara Downs 221233	Keeper ram 2023.
Bundara Downs 221351	Keeper ram 2023.
Bundara Downs 221481	Keeper ram 2023.
Bundara Downs 220155	Keeper ram 2023.
Bundara Downs 220363	Keeper ram 2023.
Bundara Downs 217788	Keeper ram 2022.
Bundara Downs 219740	Keeper ram 2022.
Bundara Downs 218190	Keeper ram 2022.
Bundara Downs 205844	Son of EM100, exceptional eating quality.
Bundara Downs 194158	Outstanding ram with proud presence and excellent balance of figures.
Felix 211151	Top price ram Felix sale in partnership Baloola & Cheringa studs.

MEMO OF SIREs cont.

Felix 201006	Top price ram at Felix sale, good balanced figures.
Ella Matta 210270	YST semen used.
Felix 221494	YST semen used.
Farrer 220103	YST semen used.
Bundara Downs 221838	Outstanding ram, used as a lamb and heavy in 23/24 mating.
Bundara Downs 220521	Outcross keeper ram 2023.
Felix 220287	Outcross ram with balanced figures.
Bruan 220173	Purchased in partnership with Ilfracombe stud, used as a semen site.
Melton Vale 220360	YST semen used.
Felix 210133	Outcross ram with balanced figures and good muscle.
Ivadene 200010	Well muscled ram purchased for muscling.
Bundara Downs 219161	Outstanding proud ram, leading ram in SGA 2022.
Wendenlea 200095	Well balanced and muscled ram., purchased in partnership with Curlew Valley.
Karinya 199028	Purchased privately with Karinya stud, top figured ram in Australia 2020.
Jusak 190008	Outcross ram purchased at the Perth show 2020.

BLAST FROM THE PAST 2012 DROP RAM

Bundara Downs 122261

Sire : F100650

Bwt :	0.22	Pemd :	2.2
Wwt	11.6	LE :	2.1
Pwwt :	18.0	LEQ :	151.6
Pfat :	-0.5	TCP :	155.3

One of the most influential rams we bred within our stud and the White Suffolk breed. Being a 2012 drop ram, the figures are still comparable with the industry 13 years on. Not many rams have this type of credentials and can be found in many stud pedigrees. There are 2878 progeny in 67 studs.
